SUMMARY

Final-year Information Security undergraduate (CGPA: 8.89) with a published patent in cloud intrusion detection. Skilled in SIEM, SOAR automation, and incident response with Python, Wazuh, ELK Stack, and AWS.

EDUCATION

Vellore Institute of Technology, Vellore

Aug 2023 – Present

B. Tech in Computer Science Engineering (Information Security)

- CGPA: 8.89 (After 6 semesters)

Lotus Valley International School, Gurugram

2021 – 2023

CBSE (Grade X & XII) - 97.8% (X), 94.4% (XII)

TECHNICAL SKILLS

Programming: Python, C++, Java, JavaScript

Cloud & Security: AWS, Wazuh SIEM, ELK Stack, Cowrie Honeypot

Tools: Linux, Git, Docker, VirtualBox

EXPERIENCE

F13 Technologies

May 2026 – Present

Cloud Engineering Intern

- Built a serverless Leave Management System on AWS, automating end-to-end HR leave workflows with role-based access control.
- Completed AWS training with 6 accreditations in cloud architecture and generative AI.

Baldmann

May 2025 – Present

Security & Networks Analyst

- Analyzed attack surfaces in Brain-Computer Interface (BCI) systems, identifying four major attack vectors for threat modeling.
- Hardened server and network infrastructure (access controls, segmentation, monitoring) for secure dev/test environments.

IEEE-PCS Chapter, VIT

Mar 2026 – Present

Chairperson

- Led 22 technical workshops, coordinating a 25-member team and reaching 400+ participants.

PROJECTS

Patent Application — Published

- Designed a cloud intrusion detection framework integrating Cowrie honeypots with Wazuh SIEM for deception-based threat detection and automated response.

Cloud-Native Leave Management System — In Progress

- Building a serverless leave management system on AWS Lambda, API Gateway, DynamoDB, and IAM with role-based access control.

KAVACH: DevSecOps Security Scanner for Banking Applications — Python, FastAPI, Semgrep, Gemini

- Built a FastAPI backend integrating Semgrep and pip-audit to scan repositories for code and dependency vulnerabilities.
- Integrated Google Gemini to translate findings into remediation guidance and generate PDF, SARIF, and CycloneDX SBOM reports.

CERTIFICATIONS

- AWS Technical Accreditation (Partner Training)
- AWS Skill Builder: Agentic AI Essentials, Cloud Economics Essentials, Generative AI on AWS, Migrating Workloads to AWS, Data Scientist Learning Plan
- [CompTIA Network+ \(Computer Networking and Security\)](#) – Udemy course

ACHIEVEMENTS

- UCO Bank Hackathon 2026 — National Finalist (Team KAVACH)
- Super Scholar's List (2022–23) — Academic Excellence
- IEEE-PCS Board 2026–27 Team
- CF4VIT 2.0 Forensic Hackathon — Top 30 (of 80 teams)
